

THEY REALLY ARE, triplets that is, and one could go on and say identical triplets. The caption writer said that was a comforting thing to know. He was trying out some trifocals and figured the things were reflecting three times, like mirrors. He preferred that thought to an alternative that he had flipped at last and was seeing triple. The young men here, freshmen at Carl Sandburg high school, are, (that is what the information accompanying the picture says) left to right, Ronald, Donald and Arnold Young, of Hickory Hills. Ronald and Arnold are baseball enthusiasts while Donald prefers less strenuous activities. When it was pointed out that Ronald has his shirt collar buttoned and while Donald and Arnold have their collars open, umm, lets see now, . . . Donald? yes, Donald is the one in the center, has a stripe on his shirt that Arnold doesn't, the caption writer was captivated: "Just imagine," he said. "They have to dress differently so they can tell themselves apart."

Police Rams Fugitive Car After Fast 18 Mile Chase

New Lenox police chief, George Kennedy joined a Joliet patrolman in a fast chase Tuesday forenoon that ended near Matteson when the Joliet officer, Howard Martinson, rammed the fugitives' car and sent it into the ditch. No one was injured.

The chase, which began in Joliet and extended approximately 18 miles, was punctuated by shots and bursts of speed around 100 miles an hour. Martinson poured in two blasts of buckshot into the trunk of the car and Kennedy scored three hits with a pistol. The officers were not trying to hit the occupants, three juveniles with police records, but to slow them down.

The car used by the trio ran a dozen cars off the highway, police said, apparently trying to cause a crash that would delay their pursuers. They sideswiped the Joliet squad car just before Martinson rammed the other vehicle, and caused one of his tires to go flat. The three youths were Donald Wren, 17, an escapee from St. Charles and two lads of Mexican extraction, Joseph Pena, 17 and Moses Moreno, 15. Wren was serving a sentence for stealing cars. He was driving the car the trio was using Tuesday.

Martinson was enroute to an inquest when he noticed the three boys in the car kept glancing out the rear window as if alarmed by the presence of the police car. Martinson decided to investigate and when he drew a closer, he recognized Wren. The latter stepped on the gas and sailed off. The chase started at Cass and Collins in Joliet. Chief Kennedy at New Lenox was alerted by radio and tried to block the fugitives at Cedar and U. S. 30 but Wren maneuvered around him and went on. He also eluded a road block near Matteson. During the chase Wren ran most of the red lights between Collins street and east of Matteson including all the heavily traveled north and south highways.

Organize Boy Scout Troop At Frankfort

Boy Scout troop 207 has been organized at Frankfort and thus the scouting program has returned to that village.

There was a Boy Scout troop at Frankfort many years ago but it lapsed and was not revived until now. The organization ceremony took place in the grade school gym last night (Wednesday).

Gerald Francis will serve as scoutmaster and Howard Peterson is assistant scoutmaster. Lynn Kohlman was chosen as Frankfort representative to the National Office of the Boy Scouts.

The Scout board that will serve Frankfort is made up of James Maloney, Warren Anderson, Herman Weichbrodt, George Maertlin, Clifford Woodman, Russell Davis, Daniel O'Connor and Ronald Carroll.

Let's learn from the mistakes of others. We can't live long enough to make them all ourselves.

Race Horses, Barn Burn In \$75,000 Fire

Fire of undetermined origin, but may have been caused by defective wiring, destroyed a barn and four race horses on the S.A. Alexander farm on Harlem ave., about four and half miles southwest of Frankfort in Green Garden township last Thursday night.

No official estimate of the loss was forthcoming but it was believed the total would come to about \$75,000.

It was estimated the valuation on the barn would be \$10,000

or \$12,000 and one of the horses, Henry's Jewel, owned by Alexander, is said to be worth \$40,000. The other three horses, Light Touch, Cosmic Era and Worthy Tone, have a value of around \$25,000, it was said.

There were 15 horses in this barn. Stable hands succeeded in getting 12 of them out but one ran back in the blazing barn and perished with three others that rescuers could not reach.

There were 31 other horses in other barns. Firemen from

Frankfort and Monee kept neighboring buildings wet down so there was no damage to them.

Fire Chief Fred Kohlman of Frankfort said the fire was discovered about 5:30. There had been a power failure, possibly from a short at the barn because a short time later smoke was seen coming from that structure.

An alarm was turned in and then the people working on the farm began getting the horses

out of the burning barn.

Fire Chief Kohlman said that as usual in farm fires the water supply was inadequate and he telephoned the Monee department immediately. Monee has a 2,300 gallon tank truck and with that supply firemen quickly got the blaze under control. The fire started at the west end of the building and it was stopped about 40 feet from the east end.

Alexander has accommodations for 60 horses. He makes a business of boarding racers,

especially brood mares and yearlings. Comparatively few race horse owners have their own establishments where they can keep mares, colts and other horses who are not campaigning and they board them.

About a year ago a tractor caught on fire behind one of the horsebarns at the Alexander farm and Frankfort firemen were called out. The blaze then was extinguished before it could spread to the building.

Father Of 3 Small Children Dies In Crash Near Orland

A man from Orland Park and a woman from Blue Island were killed and two other persons injured as a result of a collision about 7 o'clock Saturday night, Nov. 11 at 83rd ave. and 143rd street, half a mile east of Orland Park. Three cars were involved.

The man killed was Eugene Leodoro, 26, of 10342 W. 151st street. He leaves a widow and three small children, the eldest three years old and the youngest five months. He was employed as a sheetmetal worker by the Lemont Heating Co., at Blue Island, during the day and worked nights at the Sinclair station operated by Rosario Cosentino at 143rd and Southwest highway.

The woman killed was Mrs. Frances Pattenau, 52, of 225 Broadway, Blue Island. Injured were her husband, Norman, 54, and Leslie Uthe, 52, of 143rd st. and 80th ave., Orland township. Both were taken to St. Francis hospital, Blue Island.

Seek Aid For Family

Friends and neighbors of the Leodoro family took steps Monday to raise a fund for the benefit of the young wife and three small children left by Eugene Leodoro, who was killed in an automobile accident east of Orland Park Saturday night.

Justice of the Peace Roy Benson and Rosario Cosentino, operator of an Orland Park gas station where the accident victim was employed at night, have been placed in charge of the fund.

Persons who wish to make contributions are asked to mail them to the Leodoro Children's Fund, P. O. Box 304, Orland Park.

A special \$2 dinner is to be served at the McKenzie restaurant next Wednesday, Nov. 22, from 5 to 9 o'clock and all the profits will go into the fund, it was announced by the proprietor, Harold Helenhouse.

According to State Trooper William Walker, who investigated the accident, Leodoro and Uthe were both east bound on 143rd street and Leodoro is alleged to have attempted to pass Uthe.

Pattenau was traveling west on 143rd street and Leo-

doro's car collided with the west bound auto and then was hurled against Uthe's automobile.

The Orland Park fire department's rescue squad was dispatched to the scene.

Leodoro came to Orland Park two years ago from Roseland. His body was taken to the Doty chapel in Roseland where funeral services were conducted yesterday (Wednesday) afternoon at 1:30 o'clock. Burial was in Cedar Park cemetery,

127th and Halsted.

Besides his wife, Catherine, Mr. Leodoro is survived by three sons, Tommy, 3, Wayne 2 years old, and Roger, five months; his mother, Mrs. Bernice Kruger, a brother, Raymond, and a sister, Angela, a stepfather, William Kruger, all of Roseland, and a stepbrother and sister, William and Marilyn Kruger, in Germany. He was born in Chicago, June 3, 1935.

Pick Manhattan Girl As Foreign Exchange Student

Beverly Guildenzoph of Manhattan was selected by the local American Field Service Chapter as the Lincoln-Way high school student abroad foreign exchange program. She was selected from twenty-two junior applicants.

The candidates had an initial screening by the committee and then an intensive oral examination. Ralph Goodwin, president of the local AFS chapter felt that the calibre of students applying this year was exceptionally high.

Connie Morrison of Frankfort was the first alternate. The semi-finalists were Jim Wiegand, Mary Knapp and Janet Geuther.

Guildenzoph is the junior class president at Lincoln-Way. Her scholastic average is a B.

This is the fourth year that

Lincoln-Way has participated in the foreign exchange program with the AFS. During this time students have been to the Lincoln-Way areas from Denmark, Germany, Italy and Belgium. Marijke Van der Nieuwland of Belgium is the present foreign exchange student at Lincoln-Way. Miss Vander Nieuwland is presently living with the Everett Bailey family in Manhattan.

Lincoln-Way students have been sent to the Netherlands, Argentina in South America and Germany.

The area has supported this foreign exchange student program very well. "The financial support from the communities has been the main reason that the program can continue with its wonderful benefits," a spokesman stated.

Mokena PTA All Set For Annual Family Fun Fair

Everyone is invited to join the fun at the Carpenter Street school Saturday evening when the Mokena PTA will hold their annual Family Fun Fair. It promises to be one of the most entertaining events of the fall season. The festivities will start at 5 p.m. at the "H & H" cafeteria operated by Mrs. Leon Holman and Mrs. Wilfred Hult. The cafeteria located in the music room will serve food all evening.

Games and booths will be featured thruout the school and the gymnasium. Little tots will be sure of an exciting catch at the fish pond operated by Mrs. Gordon Spiess or they can play

the pingpong game at Mrs. Victor Peterson's booth. The beanbag and ring toss run by Mrs. Walter Hentsch will challenge the "shooting eye" of all boys and girls. Everyone age one to one hundred will want to try their skill at Mrs. Frank Sizer's dart game. Men and boys will show off their drop shots at William Donaldson's basketball toss game and a prize guaranteed to tickle the sweet tooth can be won by just participating and being at the right place at the right time in Mrs. Willis Schiek's "Win-A-Cake" walk.

Ladies will be especially interested in the lovely array of things for sale at the country store operated by Mrs. Ralph Thompson. If there is a bargain-lover in the crowd he will most likely be found at the White Elephant booth run by Mrs. Lawrence Nichols or at the jewelry booth operated by Mrs. Walter Shewski who will display "pretties" dear to a lady's heart. Mrs. Charles Pogue will have charge of the "funny" feature of the fair, the clowns, while Mrs. Robert Rust will manage the kiddies favorite, the cartoon movies.

Other interesting features to delight the young and old will be a puppet show, run by Mrs. James Stewart and to amaze and amuse one and all a side show, operated by Mrs. Carl Neuls.

There will be social dancing to the latest records presided over by Mrs. William Lindstrom and Mrs. Donnell Bost will be in charge of the cloakroom.

MR. AND MRS. LES BROWNLEE on the left, and Mr. and Mrs. Dave McMillan display a portion of a good day's fishing in the Gulf of Mexico while vacationing in Florida. This picture represents part of a 400 pound catch. The McMillans visited with Mr. and Mrs. Dean Bright, the Brownlees and their cousin and family, Mr. and Mrs. George Cooper.

Contractor Would Build 12 Unit Flat In Mokena

Before he could get a permit to build a multiple dwelling on Wolf road, near Bryant road, the present zoning ordinance would have to be amended, the Mokena village board informed George J. Helgersen, a building contractor who resides in Brightwood.

Helgersen proposes to build 12 living units, each with one bedroom.

He was told that he would have to petition for a change in the zoning code to permit such a structure and that a regular public hearing would be held. The board did not commit itself as to what action it might take.

The request of Joseph Cook, operator of the restaurant bearing his name, and Ervin Friant, owner of the building on Wolf road in which Cook is a tenant, for a liquor license was turned down by the village board. The request was denied, the board explained, because Cook was not a resident of Mokena, required by the ordinance, Cook did not want to operate a bar,

he told the board, but to serve drinks with meals.

To have a more complete record of its meetings the board has decided to employ a woman stenographer on a part time basis. She would take down all the proceedings in shorthand and then prepare a transcript. The minutes of a meeting, it was pointed out, deal only with the actions taken, Applications, stating qualifications and the hour rate of pay expected, should be addressed to the village clerk, Alvin Sorensen.

A contract was entered into with Howard Schieblich for tuckpointing the exterior walls and repairing the windows of the village hall. The price was set at \$587.

Carroll Roberts, chief of the Mokena volunteer fire department, was appointed a part-time police officer.

It was announced by the board that the old stop and speed signs are to be replaced and some additional ones will be installed.

Hold Funeral Services For Mrs. Carrie Yunker

Funeral services for Mrs. Carrie Yunker, nee Cooper, 82, of Mokena, who died last Thursday, Nov. 9 at Silver Cross hospital, were conducted Sunday, Nov. 12, at 2:30 p.m. from the Immanuel Lutheran church, with the Rev. August J. Bueltmann officiating. Interment was in St. John's cemetery, Mokena.

Mrs. Yunker had been ill but a short time. She was born in Missouri, Dec. 17, 1878 but had lived most of her life in the Mokena area. Her husband, Fred, died in 1949 and two brothers, John and Fred Cooper, and two sisters, Mrs. Emma Hensel and Mrs. Christine Lang also preceded her in death.

Surviving Mrs. Yunker is a son, Edwin, of Mokena; two grandsons, Lee and Ronald, also survive.

Removal was to the Hirsch chapel at Tinley Park where the body remained until noon Sunday when it was brought to the Mokena church to lie in state until time of the service.

Flower Show

The Manhattan Garden club has selected the theme of its annual flower show this year from the season and it was billed as Holiday Glamor.

The show was held Wednesday, Nov. 15 in Sportsmen's hall, Manhattan from 2 to 9:30 p.m.

THE MOKENA LIBRARY is reporting an increase in business. With the out-of-doors becoming more uninviting every day more leisure time is available for reading and many persons are taking advantage of the opportunity offered by the Mokena Library for all types of reading. The library is operated by the Book club, a group of Mokena women, with financial assistance from the Mokena Lions club and the public. In the top photo are Mrs. Philip G. Lenz, (left) newly elected president of the Book club, and Beatrice Olson, librarian. In the picture at the side is Ruth Ann Munch, daughter of Village Trustee and Mrs. Willard Munch, who read more books the past summer than any other library patron. Incidentally, that table at which Mrs. Lenz and Miss Olson are seated is a recent acquisition and something quite special and custom made.

Heres Something New In Sister Acts Book Reading

Mokena Library's Summer Reading Club turned into a sister act this year - or rather two of them. The winners in the club were two pairs of sisters reading a total of 150 books between them.

Top winner was Ruth Ann Munch who read 44 books during the vacation period. Second place went to Debby Edging who had a total of 41 books read. Third and fourth place were won by sisters with Jill Edging having a total of 34 books and Mary Ann Munch 31 books.

Purpose of the club is to encourage Mokena area children to use the library and read books during their summer vacation. A total of 37 young-

sters signed up for the club and tallied their books on a form posted in the Library. An annex to the tally sheet was necessary to contain all the books recorded by the winners.

Prizes of bird models were awarded to the four winners by Mrs. Philip Lenz, president of the Mokena Book Club which operates the Mokena Library. Members of the Book Club serve as librarians.

The Mokena Library is open to all area residents and is located on Front Street one door east of the Post Office. Library hours are 3:30 to 5:00 and 7:30 to 9:00 every Wednesday.

Frankfort Girl Scouts To Have Look At Future Of Scouting

MRS. KATHERINE HEISNER
Tel. Frankfort 5187
A "Roundup for Adventure" evening is being sponsored by the Frankfort Girl Scouts Monday, Nov. 20 at 7:30 at the Methodist Church.

Senior Troop #8 from Joliet is presenting the program to acquaint intermediates with the vast possibilities that are waiting for them in senior scouting. Leaders accompanying the troop are Mrs. William McCauley, Mrs. Osie Moore and Mrs. William Kiesewetter.

Make November a Thanksgiving Month... not a Thanksgiving Day

Walter Minger and Miss Lola Harnack.
The general meeting of the WSCS of the Frankfort Methodist church will be held at the church next Tuesday evening, Nov. 21 at 8 p.m. Mrs. Lloyd Heisner will preside and Mrs. Walter Groewald is program chairman. This is guest night. Hostesses will be Mrs. Donald Nice Sr., and Mrs. Clyde Schofield. The women from the other churches in the area will have representatives at the meeting.

Mrs. Victor Eisenbrandt was the honored guest at her home last Thursday evening when her family came to help celebrate her birthday.
Mr. and Mrs. Walter Steuber, of Fairmont, Minn., spent the week here as guests of Mr. and Mrs. Fred Schinkowski. They also called on other relatives and friends.
Mr. and Mrs. George Schroeder spent last Sunday afternoon with Mr. and Mrs. Albert Schmuhl, of New Lenox, after the two couples had dined out.

Thomas Williams returned to his home on Tuesday of last week after undergoing major surgery at Silver Cross hospital. He is recuperating satisfactorily.
Mr. and Mrs. Robert O'Toole, of Bradley, and their daughter, Mrs. Fred Yeates and son, of Kankakee, were dinner guests last Wednesday of Mr. and Mrs. Charles Bell, Mrs. O'Toole is the daughter of the Charles Bells. It was Mrs. O'Toole's birthday.
Mr. and Mrs. Walter Minger entertained at a family dinner at their home last Friday evening in honor of her mother, Mrs. Fred Haska on the occasion of her 84th birthday. Various neighbors and friends called on Mrs. Haska during the week to offer congratulations.

Mr. and Mrs. William Warner, Green Garden, have moved into Frankfort. They purchased a home on Pacific street from the Roy Thorensens.
Mr. and Mrs. Herbert Minger entertained Mr. and Mrs. Harold Moore, and Miss Viola Lankenau at dinner last Wednesday evening.
St. Peter's church is to conduct an information meeting tomorrow night, Nov. 17, at 8 p.m. All new members or anyone who is interested is invited. The Under Shepherds will have their meeting for study and assignment at 2 p.m. Sunday.
At a meeting of the Frankfort PTA in the school Nov. 9 it was decided that inasmuch as the younger children appear to enjoy roller skating more than the older youngsters, the younger group will be allotted an extra half hour -- on a trial basis. Some disciplinary problems are encountered at the teen dances, it was reported, along with an opinion that parental discipline at home would remedy the situation. A film, "Crises for America," showing Communist activities, was exhibited.

Mrs. Elsie Genens has returned from Piedmont, S.C., where she has been visiting for the past three months with her son and daughter-in-law, Staff Sgt. and Mrs. Dale Genens. In the course of his stay Mrs. Genens became a grandmother -- a boy now named Robert Dale was born Sept. 1, weighing 10 pounds.

James Adcock is in charge of the project. The girls here (1 to 7) are, first row, Ramona Gaynor, Jodi Lanning, Joana Baricovich; second row, Carol Sherman, Gail Smith, Vicki Lawson; third row, Judy Wuchko, Barbara Blanchard and Diane Newbauer. (SCSS photo)

Marley School Club Will Stage Style Show Friday Night

By VIRGINIA SASS
Phone: HU 5-6424
In perfect timing with the season is the Homer School Club's style show planned for 8 o'clock Friday night, Nov. 17 in the Homer school.
This fashion parade will give members and guests the opportunity to see what's ahead for the winter season and the trio of major holidays rapidly approaching.
Chosen to serve as models are the Mesdames Robert Erickson, Owen Doyle, Joseph Greenwalt, Ralph Cagwin, Harry Scheller, Charles Jungles, Albert Thomas, Raymond Carlson, Fletcher Binion and Henry Hiller.

Also taking to the runway at that time will be Miss Judy Cunningham, Miss Donna Lee Dobbs and Miss Geri Smego. Teenage fashions will be modeled by Jean Lauffer, Diane Moravec, Sandra Kelm and Donna Stewart. The lollypop set will be represented by Christine Reiter, Patty Townsend, Sharon Lynn Underwood, Cindy Lou Underwood, Dennis Jeffries, Kevin Erdmann and Marsha Erdmann. Piano accompaniment will be provided throughout the show by Miss Betty Anderson and Miss Alma Lauffer. During the intermission the Melo-dears of the Joliet junior college will sing and a tap dance group will appear from the Kelly School of Dance.

Arrangements for the affair are under the direction of Mrs. William Underwood, chairman. She is assisted by Mrs. Willard Cagwin, ticket chairman; Mrs. Ralph Reiter, Decoration chairman; and Mrs. Jerome Padock, refreshment chairman. The Usherettes will be Miss Carla Cochran and Miss Susan Reed. Commentary for the fashion review will be provided by Mrs. Emma Lorenc.
The Marley Woman's club met on Tuesday Nov. 7 at the home of Mrs. Adella Sproat. Mrs. Victor Zaloudek was the assisting hostess. Dessert coffee was served at 1:30 o'clock. The president, Mrs. Freda Parchem presided during the meeting. A dried flower arrangement show was held. The prize for the best arrangement was awarded to Mrs. Loren Sass. The next meeting will be the annual Christmas dinner party on Thursday, Dec. 14. It will be held at the House of Ivy on Jackson St. in Joliet. Members are to reveal themselves with gifts to their secret pals at this meeting. The Christmas

program will be presented by Mrs. William Dudlick.
The Twelve Trumps met Tuesday night at the home of Mrs. Glenn Smith. Prizes were awarded to Mrs. Fletcher Binion, Mrs. John Hasibar and Mrs. Charles Elliott. The December meeting will be held at the home of Mrs. Otto Moravec.
Mrs. Henry Hyink and Mrs. John Purdy of Dowagiac, Michigan were overnight guests on Thursday in the Frank Liszt home.
Guests on Sunday afternoon in the home of Mr. and Mrs. Glenn Peterson were Edwin S. Brain, Mrs. Dale Peterson and Mr. and Mrs. Robert Peterson and children Mark and Carole of Melrose Park and Mr. and Mrs. Loren Sass and daughter Verda.
Mrs. Frank Spiecker of Franklin Park was a dinner guest Thursday evening in the home of her son and family, the Ralph Spieckers.
Mr. and Mrs. Clarence Troutman Sr., celebrated their 25th wedding anniversary at an "Open House" in their new home on 143rd St. on Sunday, Oct. 29. Several folks attended from here.
Mrs. Irv Kamis of Chicago; Mr. and Mrs. J. W. Mahaffey of Palos Heights; Frank Hyink of Joliet; Mrs. Henry Hyink and Mrs. John Purdy of Dowagiac, Michigan; and Mrs. Daniel Sass were luncheon guests on Friday of Miss Cora Hyink.
Mrs. Frank Spiecker of Franklin Park and Mrs. Everett Bell were guests on Friday afternoon of Mrs. Charles Sievert.

east of Route 45 on 191st street, just east of the old Summit Hill school building.
There will be a door-to-door canvas of Arbury Hills prior to the Turkey Shoot to sell tickets at the price of \$1 each. Shotgun will be furnished to all who wish to participate in the shoot.
The Summit Hill Boy Scout Troop held a hike on Sunday, Nov. 5, at the Boy Scout camp near Morris, Ill.
The first of the newspaper drives held by the scouts came off on Saturday, Nov. 4. The scouts were gratified with the results and wish to remind everyone that there will be a second collection on Saturday, Nov. 18. Papers are to be placed either in front of the garage or in front of the front door, not at the curb.
The Arbury Hills Civic Association held its monthly meeting on Tuesday, Nov. 7 at the school. The main topic of the evening was the possible sale of the Arbury Utilities water works.
A committee of 15 was formed to investigate the possible purchase of the water works by Arbury Hills as a community. The committee will investigate and make its findings and recommendations to the public, as soon as they are ready.
The Summit Hill Parent Teacher Group met at the school on Thursday, the night of Nov. 9. John Smith of Arbury Hills talked and a movie pertaining to first aid work shown.
Plans for the bake sale to be held Dec. 9 at the Cooper Hostert garage, Mokena were discussed. The sixth grade room acted as hostess for the evening with Mrs. Robert Dickerson and Mrs. Walter Plumly serving pumpkin pies and coffee to the group.
Mrs. Robert Burdett of 9442 West Hickory street held a cleaning products demonstration at her home on Thursday evening, Nov. 9.

forecast for **ENERGY**

America's rapidly growing population
will consume twice as much energy by 1980

Glance at the second hand on your watch. Each seventh second a baby is born in the U.S. — more than four million a year. We'll have half again as many citizens by 1980. And, our need for energy grows even faster than our population. By 1980 the nation will need twice the energy being consumed today.

Where will it come from? Much will come from present

energy sources, some from new ones. Whatever the source, a large share of energy in its most efficient and usable forms will be transported via pipelines. Texas Eastern's natural gas pipelines, stretching from the Mexican border to the Atlantic Seaboard, have capacity to fuel thousands of factories and heat millions of homes. Our Little Big Inch pipeline system, largest of its kind, delivers liquid petroleum products from Gulf Coast refineries to Midwest markets. Looking to the future, Texas Eastern is growing and diversifying today to meet tomorrow's energy needs.

TEXAS EASTERN TRANSMISSION CORPORATION • HOUSTON, TEXAS

Homeowners Dance To Aid School Bus Fund Drive

BY GAYLE STEINHILBER
TEL. FIELDBROOK 9-9539

Orland Park Hills Homeowners Association members will hold their dinner dance a week from Saturday, Nov. 25, at Silver Lake Country club.

Dinner is scheduled for 7:30 and one of the highlights of the affair will be the presentation there of an award to the person who has given outstanding service to the community. It is hoped that the presentation of such an award will be an annual event.

Music for the dance will be furnished by the Al Carver orchestra.

Tickets for the affair may be obtained from the area captains of the HOA. Profits accruing from the affair this year will be put into the School Bus Fund.

Brownie troop 605 met last Thursday to make pilgrim dolls as Thanksgiving favors for youngsters in the children's ward at Christ Community hospital.

Brownie troop 296 had an investiture at its meeting Thursday. The investiture is when Brownies become Girl Scouts and are invested with the pins indicating their new status. Stars also are given to the older girls for each year of membership. Troop 296 also made pilgrim dolls for the hospital.

James Haverly, of Hickory drive, has been called back into army service. Mrs. Haverly (Julie) is temporarily residing with her parents in Chicago.

Mrs. and Mrs. C. E. Roney of Minnesota, enroute to Arkansas, stopped here last week to visit their son, Carl Roney, and his family.

Mrs. Ronald McDonald, of

Lincolnwood

Fourth Grade Mothers Plan Turkey Party

MRS. DELORES ANDERSON
Tel. HUXLEY 5-3651

Fourth grade mothers were busy at the Schmuhl school this week. They served a hot lunch to the children at the school on Wednesday, and have been working on a turkey party to take place tomorrow at the school.

Girl Scouts Intermediate troop 375 met Wednesday at the Schmuhl school, and finished the curtains that they were making for the school. They discussed and worked on their theme for the coming Rally in March.

The girls also made plans to visit the Hobby shop in New Lenox this week.

Betty Trenary, hostess for this week, served refreshments, and Debbie White will be hostess at the next meeting.

A special meeting was held Monday night for the parents of the Cub Scouts, at the Schmuhl school, to plan their activities for the coming year.

The Schmuhl school Community club meeting date usually the last Friday of each month, has been changed, due to the holiday week, until Friday night Dec. 1.

Fourth grade mothers will be hostesses at this meeting.

SHARON JEDLICK of New Lenox is one of 12 sophomore nursing students who participated in capping exercises held Oct. 29 in Furr auditorium on the Southern Illinois university campus. Miss Jedlick is working toward the baccalaureate degree in nursing through a curriculum composed of general study, nursing courses and clinical experience.

Taunton, Mass., is visiting her daughter, Mrs. Richard Lechowich.

Mrs. Beverly Lemons, Mrs. Vivian Wheir, Mrs. Marjorie Kuchenbecker and Mrs. Pat Packtus attended a demonstration last Friday at Beverly Hills in the home of Mrs. Packtus' mother-in-law.

Mr. and Mrs. Donald Walsh and Mrs. and Mrs. Gene Mulcrone attended the Ice Follies.

Mrs. Josephine Weston, mother of Mrs. Dee Kramer, is home from the hospital where she underwent surgery for removal of a cataract.

Mr. and Mrs. Dallas McGhee are parents of a daughter born Oct. 6 at Silver Cross hospital, Joliet. She weighed five pounds, six ounces and has been named Pamela Ann. She has a sister, Lynn, three years old.

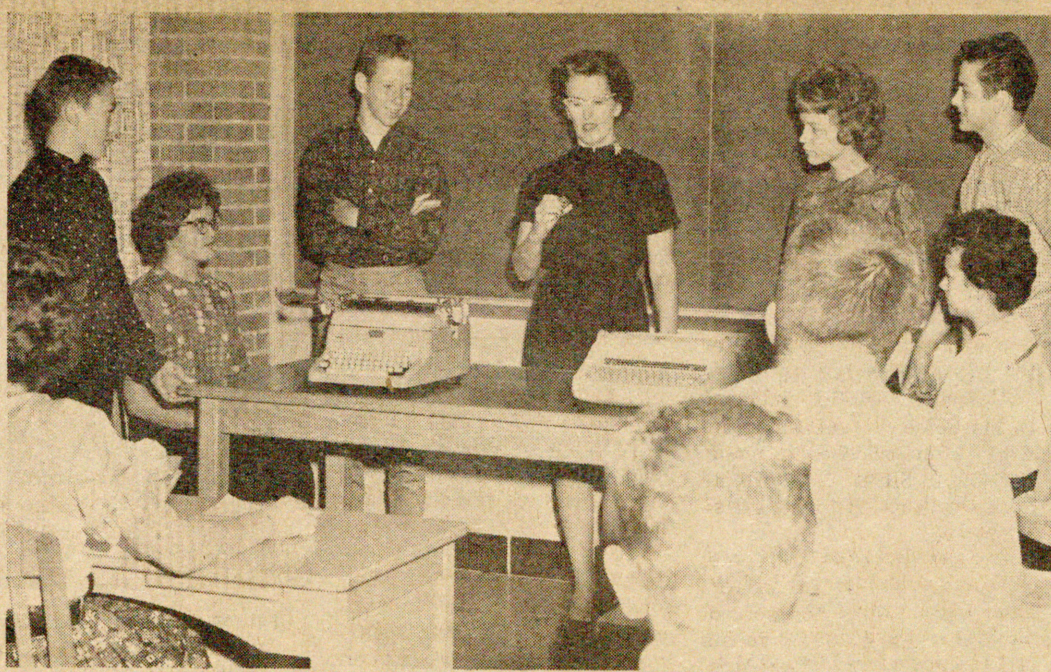

Mr. and Mrs. Larry Walters, LaPorte, Ind., were dinner guests of Mr. and Mrs. D. L. Steinhilber last Sunday.

Mr. and Mrs. Charles Evans are parents of a girl Oct. 31 at Little Company of Mary hospital. The child, Kimberly Ann, weighed seven pounds, five ounces. She has a sister, Debbie, 5.

We have new neighbors at 10263 Hilltop drive, Mr. and Mrs. Quay Lambert, and their three sons, Richard 4, Carl 2 and Clark, 10 months. They moved here from Tinley Park.

Mr. and Mrs. Leroy Middour have recently moved into the house at 15209 Hilltop drive from 1409 N. Campbell, Chicago.

Mothers of Girl Scouts and Brownies have just finished their door to door campaign for funds. Persons who were not home and wish to make a contribution, the committee said, may call the campaign chairman, Mrs. O. R. Thurston at 10300 W. 151st street.

Business Education At Sandburg Offers Wide Choice Of Subjects

With the opening of the fall term at Carl Sandburg high school, approximately 150 freshmen and sophomore students elected the newest offering in the Business Education Department -- "Introduction to Business." The course is designed to provide a basic background of knowledge and skill, not only for those students interested in following the four-year business curriculum, but for those who plan to pursue careers in other fields as well.

Business principles, practices, skills and behaviours are presented in a manner closely related to personal, social and family problems that will be or are being faced by all young people today and that will enable them to cope with these problems more effectively, it was said.

The students who complete the course as a prerequisite for the vocationally directed subjects in the department will find the development of the skills necessary for obtaining, holding and advancing in an office or merchandising position greatly facilitated by the

competency they achieve in this foundational offering. Others will find the wide variety of useful material of great help in discovering where their interests and abilities lie, and in the selection of future fields of endeavor, educational authorities point out.

Mrs. Willard Coulter is coordinating the efforts of the teachers who are conducting the five sections of the course. The other members of the staff are Mrs. Richard Para and Mrs. Gerald Abrahamson, both of whom are new on the Carl Sandburg faculty this year.

Girl Scouts End Camping Activities Until Spring

On Saturday Nov. 4 tents came down, were folded up and carried away and the 1961 camping season for hundreds of Girl Scouts in the Trailways Council came to an end.

During the past season a total of 1004 girls and over 100 adult leaders made use of the camping facilities provided for troop camping at Hawthorn Ridge. This wooded area is set up to provide for three separate units of camping and will house 72 girls for a two week troop camp session.

Besides troop camping Hawthorn Ridge was also used for weekend camping and one day activities such as cook outs, hiking and for the training of adult leaders.

Girl Scouts in the Trailways Council also enjoyed day camp experience at the following parks, Highland Park, Messengers Woods, McKinley Woods and Hammel Woods. During the past summer sixteen day camps, which last a period of five days, were attended by 839 Brownies, 724 Intermediates, 23 Senior Scouts, and were aided by 412 adult leaders.

Fees per girl for day camp

experience ranged from 2.55 to 5.08 the difference being due to the cost of transportation. General camp chairman was Mrs. Howard Kern of Lockport; day camp chairman was Mrs. Robert Yahnke of Plainfield and troop camp chairman was Mrs. Anton Sikich of Plainfield.

Trailways Girl Scout Council is one of the agencies supported by Community Chest funds.

Only a tiny amount of electric or magnetic force is needed to control the action of electrons at very low temperatures.

Back-To-School Night

Attracts Record Crowd

The annual Back-to-School Night at Lincoln-Way High School sponsored by the Parent-Teacher Group and the Future Teacher's of America of Lincoln-Way drew the largest crowd in the history of the annual November event.

More than 450 parents visited Lincoln-Way for the miniature school day. Donald J. D'Amico, assistant principal, felt that the large turn-out reflected an increase in parental interest. This always is an encouraging sign to educators.

The Back-to-School program is part of Lincoln-Way's observance of American Education Week. Other programs and assemblies were in progress at the school during the week.

The Right Of Free Choice

A proposed bill would establish a "consumers' department" at the federal cabinet level. This new department, of course, would be an addition to the other bureaus which are concerned with consumer interests in one way or another, such as the Department of Agriculture, the Federal Trade Commission, and the Food and Drug Administration.

The new proposal has drawn some telling comment from George L. Clements, president of the Jewel Tea Company. Addressing a meeting of food editors, he said: "If the idea of having a spokesman for consumers had as its sole objective protecting the consumers' right of free choice, and the freedom of competition to provide choices, it might make sense. Experience indicates, however, that professional spokesmen invariably attempt to make a judgment as to what is good for the consumer, thus interfering with the freedom of choice and the freedom to compete."

In other words, the bureaucrat becomes Big Brother, and tells us what we should have whether we want it or like it or not. An interesting recent example of this inevitable trend is found in the furor over so-called "watered hams". Without going into all the intricacies of the controversy, it was charged that packers and processors were robbing the consumer. The truth is just the contrary. More and more people like a ham with a somewhat higher moisture content than was standard in past times -- and so the producers were simply meeting consumer demand.

Mrs. American Housewife is a canny soul. She knows what she wants, and she can tell a good buy from a bad one. She doesn't need another federal bureau to tell her what she ought to do.

Who's Boss?

A short time ago the city council of a Michigan town of 31,000 population turned down a request of an oil company to construct two service stations. The reason given was that the city already has sufficient service stations to meet the need.

Here is a unique precedent which, if applied down the line, could produce some remarkable results. Entirely aside from the dubious legality of the council's decision, if municipal officials are to decide how many service stations a community should have, they must also be entitled to decide on the number of retail stores, insurance agencies, newspapers, doctors and so on ad infinitum.

The point is simply this: Should bureaucrats determine the extent of the goods and services available -- or should business people and their customers? Putting it another way, who's boss -- public servants or the public?

How To Save A Life

Believing that wider knowledge of first aid treatment would have been instrumental in saving some of the 27,000 persons who died last year in home accidents the American Mutual Liability Ins. Co. asked six medical specialists to prepare papers on proper first aid in six leading types of accidental injury. The following article, one of six to be carried by this newspaper, tells what to do in one serious instance.

By G. J. CURRY, M.D.

Anyone cut so that he is bleeding badly is in real trouble and needs attention immediately.

Doing the right thing until a doctor arrives can save his life.

The first thing to do is stop, or retard, the bleeding.

The second thing is to get the injured person to a doctor or a hospital.

The way to stop bleeding in almost all cases is to apply pressure at the source, where the cut is. This can be done by making a pad of any soft cloth available, a sterile gauze bandage of course preferable, and applying it directly to the wound with the hand. It also can be done by bandaging a large dressing in place.

In an emergency any handy piece of cloth--a shirt, scarf, underwear or anything similar--can be used.

Careful handling of the patient is always important. Don't try to move him. Call an ambulance as quickly as possible. Keep crowds away, and take off clothing very gently.

Remember, tourniquets, although having a proper use in exceptional cases, are dangerous. They can cause gangrene if they are applied too tight and too long. The only use of a tourniquet should be as a last resort in an extreme situation, or where an arm or leg has been severed and hand pressure is not sufficient to stop the bleeding.

It is very important to get the patient to a hospital. But there is no reason for driving at a high speed; this will only shake the patient unnecessarily, and he is in enough trouble without that. It also puts the victim and others in danger of an automobile accident. An injured person deserves something better.

In some cases, where the injury and bleeding are on a leg or arm, there should be splinting. Binding the arm or leg to a straight and rigid splint insures rest and protection of the wounded part. This is especially true for injuries near joints.

The Upper Room

Read John 4:21-30

"Come, see a man who told me all that I ever did. Can this be the Christ?" (John 4:29, RSV.)

During a campaign of evangelism for youth in Sweden, a boy visited one of his friends of the same age to witness for the first time to his belief in Christ. Afterward he gave this testimony: "I have been a confessed Christian for four years, but now for the first time I realize what it really means."

We do not discover how wonderful it is to be a Christian until we begin to share our faith with others. Then our eyes are opened to God's riches which are in Christ. All the time His riches were there to be possessed, but we did not realize it. When we begin to tell others of our faith, Christ becomes more important to us than ever before, for He adds faith to our faith when we share it.

Yes, great blessings are to be found in sharing our faith in Christ with others. Thus we spread the good news to those who need to hear the gospel. PRAYER: O Lord, help me

On Second Thought

By GLENN F. LOGAN

It's here again! The hunting season.

And if those people who are prepared to erect bomb and fallout shelters -- for a price, of course -- want to get down to cases and take advantage of the present day market instead of building for the future, so to speak, now is the time to hustle for business.

Whether there will be a nuclear war is anyone's guess. And if there is such a war the big question is whether shelters will afford any great amount of protection.

But with hunters on the loose there is immediate need for protection for those living in the country or those suburban towns where the subdivisions blend in with the open spaces.

There's no guess work about this. The "fallout" from the loose shooting once-a-year hunters is lethal stuff indeed.

Too many of those who go hunting know little or nothing about guns. They know how to load and fire a gun -- but not when. Such ignorance can be, and often is, fatal.

There is an old axiom that should be followed by every person who has a gun in his hands--never point it at anything you do not intend to shoot.

Careless use of firearms takes a heavy toll every year. And in the face of this it is easy to understand why the majority of farm owners put their places out of bounds to hunters.

Granted that many city people are unacquainted with live farm animals they must know there is no resemblance between a cow and a pheasant but if they don't maybe their best friends will tell them that a cow is larger, is unfeathered, has four legs and doesn't fly.

And those feathered creatures walking about a pen or the yard near the house are not pheasants either. They may be chickens, guineas, ducks or geese.

It seems a bit far fetched when some hunter shoots a pig or a sheep or a horse and seeks to excuse himself on the grounds that he thought it was a squirrel, a rabbit or a snow goose.

For that matter there is little resemblance to such creatures by man or dog yet every year quite a harvest is taken of men and dogs by trigger happy numskulls.

"Something moved," they endeavor to explain later, "and I thought it was a whale so I shot..."

Men wearing red or bright orange caps and jackets are mowed down every year by fellow hunters who mistake them for deer. This could be a very honest error because maybe the deer with which the hunter is familiar goes around wearing a red or bright orange cap or jacket especially in the autumn when the hunting season is on.

The fact that your correspondent has not seen deer so attired does not mean they don't do that. The woods may be full of them, as the saying goes.

Hunters unfamiliar with guns or those familiar but fail to show the proper respect due such instruments of power and destruction sometimes kill themselves.

There are two schools of thought on this subject. One is that persons handling guns should never climb a tree, crawl thru a fence of jump a ditch with a loaded gun; never put a loaded gun into a car or boat nor take a loaded weapon from such vehicles; never take a loaded gun into the house; never leave a loaded gun unattended; never shoot at a hard flat surface, such as water, ice, frozen ground etc. and if loaded or even half loaded stay away from loaded guns.

The other school would say nothing of the kind, going on the premise that the careless hunter is more likely to kill or wound himself and if does it before getting into the field there is less chance of him killing or wounding others so why not let him go ahead and get it over with -- the quicker the better.

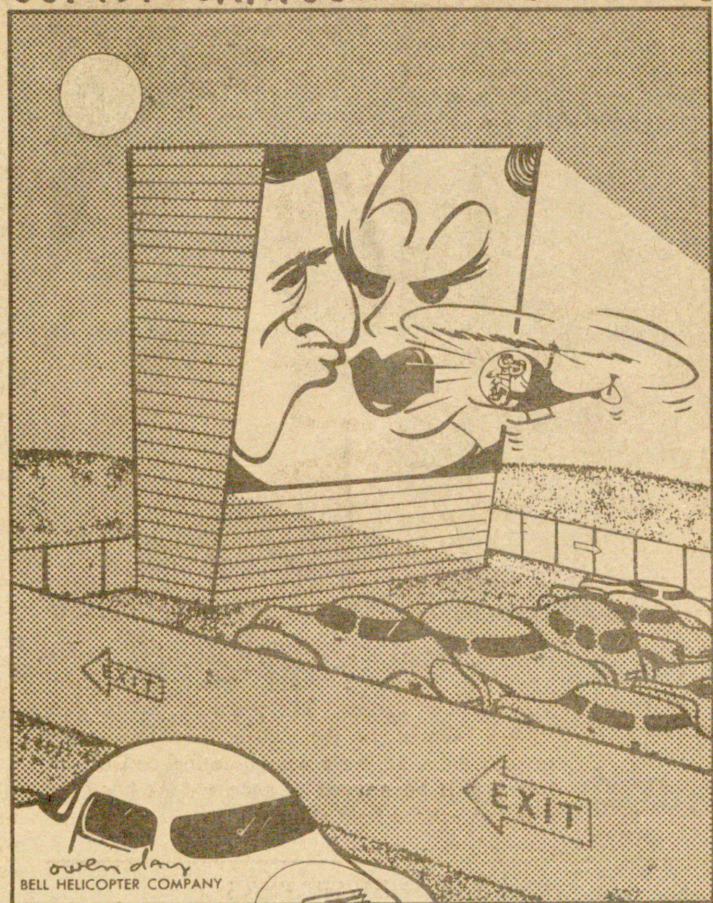

By and large the American farmer is a patient man. He not only has the natural elements to contend with but bureaucrats yet, with forms to fill

this day not to put my lamp under a bushel, but cheerfully to profess Thy name and spread the gospel. For the sake of Christ, who loves all mankind, and taught us to pray, "Our Father who art in heaven... Amen."

THOUGHT FOR THE DAY The more you share the gospel with others, the more you receive for yourself and others, Karl Erik Hellberg (Sweden)

COPTER CARTOON

"Let's go... this is where we came in..."

out; corn borers; tax collectors; rust and a hundred and one other problems and on top of everything else -- hunters.

It should be stated, however, that there are some hunters who are very fine people. They never enter on anyone's land without permission and recognize that a farmer has property rights, the same as city dwellers.

On the other hand there are hunters who apparently are under the impression that they have an inherent right to pursue their quest for game anywhere and resent any efforts to curb their activities.

In addition to those who hunt by day farmers also are plagued by those who hunt by night, using headlights.

We have said it before and will say it again -- the solution seems to be in the establishment of game preserves either by hunters themselves thru private clubs or organizations or thru the use of public lands dedicated for the purpose.

Get the hunters off the farms.

Hints For Homeowners

By: JAMES FIZZELL, ASS'T. FARM ADVISER

Now is the last chance we will have to prepare lawns and plantings for winter. Proper attention to this will assure that everything will come through the winter in the best condition.

Lawns should be raked free of all fallen leaves. Leaves will smother out the grass below them leaving dead areas in the lawn. The grass should be cut to about two inches so that it will not become matted inviting disease.

Annual flowers should be pulled out of the beds as soon as they die, or should be dug under. Tender perennials and bulbs should be removed before the ground freezes solid. Be sure to cut back the dead tops of the hardy perennials and rake the rose beds free of fallen leaves. Some of the diseases of roses can be eliminated in this way, since they often overwinter on fallen leaves.

Secure the materials you will use to cover the rose plants. Half bushel baskets placed over the plants work quite nicely, or

Evergreens, particularly newly planted ones should be well watered before the ground freezes. These plants need water even in mid-winter because their leaves loose water every warm day.

Many people lose their chance for an early start in spring because of broken or lost equipment. Mud and rust should be removed from all shovels, trowels, hoes, etc. Rust can be removed with a wire scratch brush or steel wool.

After cleaning, sharpen the tools and wipe them with an oil rag to prevent further rusting. Rough or cracked handles can cause nasty blisters. Smooth rough spots with sandpaper and treat the handles with linseed oil. Replace cracked handles.

Sharpen your mower or have it sharpened. Clean grass clippings and oil from all parts with a brush and oil all moving parts. Adjust the blade to the proper heights.

Gasoline engines should be drained of fuel and cleaned. Fuel left in the tank over winter can gum up the carburetor and fuel lines. Clean the air and fuel filters. Clean or replace the spark plug. Check moving parts and belts for wear. Replace worn parts which could cause a breakdown with heavy summer use.

Thoroughly clean all traces of fertilizer from your spreader, and oil the moving parts. Fertilizer bags should be stored off the floor, and open bags should be sealed to prevent caking.

Drain the hose and hang it up dry on a hose reel, or store it on a hook or nail which might cause a sharp bend and possibly crack the hose. Replace worn washers.

Properly installed sill-cocks slope outward so they drain when turned off. Be sure all sill-cocks and outside taps are drained or are turned off inside the house.

If you do not already have one, now is a good time to build a tool rack. Hang your tools so you can find them when you need them. Tools lying on the floor can cause serious falls.

Eighteen boys and girls were given state outstanding awards. They are: Alice Bollman, T. N.T., Linda Bussema, Needles & Kettles, Shirley Dieckhoff, Barrington Bluebirds and Hanover Hawks, Sally Jane Dimiceli, Hanover Hawks, Judith Elaine Fisher, Country Cousins and Barrington Pioneers, Linda Johnson, Sauk Trail Stir & Stitch, William Kerchenfaut Jr., Hanover Hawks, Randy Klein, Bloom Girls, Kay Maue, Alpine Girls, Cheryl Maxwell, Sticks & Mix, Martin Sidor, Prospectors, Jean Marie Siemsen, Tinley Hustlers, Betty Jean Stellwagen, Alpine Girls, Joan Uthe, Do-R-Best, Elaine Louise Yunker, Alpine Girls, and Leslie Allen Yunker, Orland Boys.

The 4-H'ers who are not listed among the top winners have a goal for 1962. Every club member that meets the minimum requirements were given his award at the area awards program.

Business & Finance

BY MAURICE P. ANGLAND

The business news continues to make very good reading and securities markets are reflecting this news in rising price levels. Trading volume is increasing on the up side with obviously declining offerings on the down side.

One recent trading day on the New York Stock Exchange reported only five new lows with many new highs. It is, however, sometimes forgotten that the stocks listed on the New York Stock Exchange are about 1,400 in number and represent a wide range of commercial activity. The profit picture for all activities is very seldom the same. While some firms show increases, others may be static or declining. Some educators in university schools of business, point out to their students that corporations are likely to have life lines very similar to that of human, i.e., childhood, youth, middle age, and declining years. This is over-simplification, but used to indicate general patterns.

Students of business history find there is some basis for the rule that it usually takes about five years for a firm in a healthy field, to turn itself back into former profit levels, once it definitely has entered profit doldrums when compared with other firms in the same field.

In calculating earnings increases of firms with large research budgets, it is usual for a time lag between research expenditure and profitable marketing, to be between four and six years.

An example of this time lag is had in a statement by the president of Burroughs Corporation, makers of electronic office machines and equipment. He stated, "A calculated decision was made several years ago to reduce earnings temporarily, to write a long term insurance policy for the company."

This "insurance policy" of earnings of the future and present being based on the usual research lag, like Burroughs, National Cash Register showed per share earnings down with business totals up. These special costs have started to decline in comparison to sales.

Government expenditures are expected to start making themselves plainly felt shortly.

With elections to be with us again next year, many students of Congressional action expect little in the way of non-defense spending and even see an increase in this area. Military spending is almost certain to increase. Political requirements may require gestures toward economies and tightening of the fiscal belt, but little change in trend away from the generally upward curve.

It is all too easy to criticize our congress and the administration. Criticism is very easy when made with results of a particular action, are evident. Our system of government has proven itself to be the most productive the world has known.

Countries and systems of government controlling the greatest amount of natural resources, have not been the ones showing best results with standards of living of its citizens as the test. Aside from the major countries for comparison, note Sweden with only iron ore and forests with no coal and little, productive agricultural land. It has a population about the same as Illinois. Compare its impact on world affairs and advancement against that of Russia under the Communies.

Students of economics whose voices do not usually get the hearing given the big lie or boasts of Communists, know that the economic growth under the Communies is about the same (or slightly less) than the growth rate under the Czars when compared with advancement of the whole modern world of eras under comparison.

NL-GAS CO. recently occupied its new customer service center in Chicago's south suburban community of Palos Heights. This, along with a new maintenance and construction center at Crestwood, occupied several months ago, replaces the utility's outmoded facilities at Blue Island. Looking at photo of the new Palos Heights headquarters building during a recent open house for civic officials are (l. to r.) Z. Erol Smith, Jr., mayor of Palos Heights, Ernest Musilek, village president of Crestwood, and Vern Wilkening, NL-Gas district superintendent for that area.

NI Gas Reports Adequate Supply To Meet All Needs

Northern Illinois Gas Company reported to stockholders this month that earnings for the 12 months ended Sept. 30, 1961, were \$2.18 a share. The reduction in per share earnings since June 30, according to Marvin Chandler, NI-Gas president, reflects the issuance in July of 450,037 additional shares of common stock.

The current figure compares with earnings of \$2.37 a share for the 12 months ended June 30, 1961, and \$2.07 a share for the 12 months ended Sept. 30, 1960. Per share earnings for the latter two periods were based on the smaller number of shares then outstanding.

Chandler said NI-Gas is entering the heating season with adequate supplies of gas to meet all the winter requirements of its expanding list of customers. He said the company

pany is prepared to meet a peak day requirement of 1.2 billion cubic feet of natural gas, about 40 per cent more than the 886 million cubic feet distributed on the peak day last winter, December 22, 1960.

A contract for an experimental natural gas turbine system--to furnish the entire heating, cooling, lighting and other power requirements in the utility's new General Office, under construction on the East-West Tollway at Illinois Route 59 -- is expected to be awarded within the next few weeks. This system will make the building independent of any outside energy supply, other than natural gas, when it is completed in 1963.

Stockholders received a quarterly dividend of 35 cents a share, reflecting the \$1.40 annual dividend rate paid since May 1, 1961.

Museum Correlates Tours With Studies In Grades

A new program of special school study tours for pupils in the fourth, fifth and sixth grades has been inaugurated by the Museum of Science and Industry.

Instructions, telling how teachers may tie the tours in directly with subjects now being given in their own classrooms, have been sent to hundreds of public and parochial elementary schools throughout the metropolitan district.

The tours can be varied according to the needs of individual schools. Some are scheduled to last only an hour; while others may be arranged to cover the full school day. In the latter, provision is made for students' lunches in the Museum's Safari lunch room, a special facility capable of accommodating up to 4,000 school student diners a day.

Subjects covered by the tours fall into two general categories -- science and social studies.

Three live programs, performed by Museum personnel, are available to the student groups in the Museum's Electric Theater, Talking Towers Theater, and recently opened Hall of Elements.

In addition, there are nine film theaters where the projectors are either operated by resident demonstrators or where visiting teachers can put the performances into motion themselves by simply pressing handy push-buttons.

New Lenox Girl Receives Scholarship At Normal U.

Karen Jane Korista, a 1961 graduate of Lincoln-Way high school and a freshmen at Illinois State Normal university, has been awarded a scholarship to prepare for the teaching of handicapped children.

Also receiving this scholarship is Frances Fitzpatrick, a graduate of Reed-Custer township high school at Braidwood.

Karen, daughter of Mr. and Mrs. Drommer Korista, Maple Rd., New Lenox township, was a member of the National Honor society while at Lincoln Way. She was active in drama and speech work as well as science clubs.

The scholarship announcement was made this week by George T. Wilkins, superintendent of public instruction.

Wilkins said the 71st General assembly authorized 250 annual scholarships in the field of "special education."

A candidate must be a graduate of an accredited high school during the present year and submit a formal application indicating he plans to teach handicapped children following graduation from one of six state universities.

The new amendment to the Illinois Scholarship law is in addition to regular four-year teacher education scholarships presented annually to high school graduates who must have graduated in the upper half of their classes.

The scholarships apply to the following universities--Illinois State Normal university, Normal; University of Illinois, Urbana; Northern Illinois university, DeKalb; Southern Illinois university, Carbondale; Eastern Illinois university, Charleston, or Western Illinois university, Macomb.

Qualified applicants are entitled to instruction, matriculation, graduation, tuition and activity fees in the teacher education program.

Sneakers And Stingers Or To You . . Scorpions

By ROBERTS MANN
(Conservation Editor)

Scorpions have been feared since ancient times. Some kinds, especially in the tropics, are dangerously poisonous and their stings are frequently fatal, but there seems to be something menacing and evil about even those that are comparatively harmless.

A scorpion is an arachnid, eight-legged and related to the spiders, but it looks more like a crayfish with a skinny tail. It has a pair of appendages extending from each side of the mouth and ending in powerful pincers. Those are called pedipalpi because on spiders and other arachnids they resemble legs, but on scorpions they resemble the claws of a crayfish. The last five segments of the abdomen are slender and form a conspicuously jointed "tail". At the end of it is a curved, pointed

Contributor's Corner: Dick Lohmeyer of Valparaiso, Ind., admits he got a black eye as a result of a guided muscle . . . Marie Barry of Jackson Heights, N. Y., says that a miracle kind of drug is any kind of medicine you can get a kid to take without trying . . . Publisher S. E. Mekeel of the Ovid (N.Y.) Gazette and Independent writes he saw this store window sign: "Big bargains in shirts for men with 16 or 17 necks" . . .

Vermont Connecticut
Royster is the Wall Street Journal's editor . . . The Smithsonian Institution has received a silk purse, believed to be the only one made out of sows' ears . . . What do they mean: "Phony as a \$3 bill"? . . . An 1837 \$3 bill found in a musty vault by officers of the Boston Municipal Court can now be exchanged for \$4 . . .

The Dept. of Agriculture
has bought 802,000 cans of applesauce . . . High beef-steak prices have a precedent. A 10-pound steak sold for \$48 a pound in Circle, Alaska, during the gold rush of the 1890s . . . Sixty-nine-year-old editor Gene Robinson of the Robbinsville (N. C.) Graham Star runs a mile before breakfast every morning . . .

Editor Rog Allen of the Hempstead (N. Y.) Beacon reports they're serving "astronomical" pancakes in Williamsburg, Va.—they cover the plate, yet thin enough to see through . . . There are 16 giant Belgian horses on the Shafter farm in Washington County, Md.—probably more draught horses than on any other farm in the East . . .

stinger with an enlarged base containing a pair of poison glands. When attacking, a scorpion arches its tail over the back and plunges it forward to sting.

Scorpions lead lonesome lives. They avoid each other or fight until one is killed—then eaten. The males, more slender and with longer tails, are often killed and devoured by the females after mating. The fertilized eggs develop inside the mother and the young are born alive. Then they climb upon her back and, with only her pedipalpi, legs and tail visible, she carries them around but does not feed them. They exist upon egg yolk in their midgut. They molt their shells as they grow and soon after the first molt, resembling an adult but many times smaller, they drop off and each little cannibal goes his or her own way.

A scorpion has a central pair of eyes and, depending upon the species, from three to five pairs of smaller lateral eyes. In front of the mouth there is a second pair of appendages, much shorter than the pedipalpi, equipped with small but powerful pincers for mashing and shredding food. The first pair of legs have glands secreting digestive enzymes.

Scorpions prey chiefly upon insects but spiders, millipedes and centipedes are also eaten. When a scorpion is hungry it seizes an insect with the pincers of the pedipalpi, paralyzes it with the stinger, mashes it with the short appendages, injects enzymes into it and, when all of the insect's tissues have become fluid, sucks it dry. Nothing but the empty chitinous shell remains. However, scorpions can live more than a year without eating.

There are at least 300 species of scorpions, most of them in tropical or desert regions, and they vary in length from one-half inch to more than seven inches. Some are reddish, some yellow, and some green. There are scorpions in Europe and 30 species are known to occur in the United States southwest of a line drawn from North Dakota to the Carolinas. Apparently they do not occur in Illinois.

There are at least two types of scorpion poison. One is comparatively harmless to man. It causes sudden sharp pain, followed by numbness and local swelling, but after an hour or two the effects are usually gone unless the victim is a child or unusually allergic to such venom. The other type is neurotoxic and similar to the venom of the coral snake and the cobras. The symptoms resemble poisoning with strychnine and frequently death results. Many fatalities from scorpion stings occur in parts of Mexico.

Scorpions, active at night, hide in daytime under stones, logs and rubbish; in crevices of rocks; in barns, sheds and old buildings; and are apt to crawl into houses, tents, and even beds. In scorpion country we empty shoes and shake our clothes before putting them on. Scorpions are sneakers.

date of an accredited high school during the present year and submit a formal application indicating he plans to teach handicapped children following graduation from one of six state universities.

The new amendment to the Illinois Scholarship law is in addition to regular four-year teacher education scholarships presented annually to high school graduates who must have graduated in the upper half of their classes.

The scholarships apply to the following universities--Illinois State Normal university, Normal; University of Illinois, Urbana; Northern Illinois university, DeKalb; Southern Illinois university, Carbondale; Eastern Illinois university, Charleston, or Western Illinois university, Macomb.

Qualified applicants are entitled to instruction, matriculation, graduation, tuition and activity fees in the teacher education program.

stinger with an enlarged base containing a pair of poison glands. When attacking, a scorpion arches its tail over the back and plunges it forward to sting.

Scorpions lead lonesome lives. They avoid each other or fight until one is killed—then eaten. The males, more slender and with longer tails, are often killed and devoured by the females after mating. The fertilized eggs develop inside the mother and the young are born alive. Then they climb upon her back and, with only her pedipalpi, legs and tail visible, she carries them around but does not feed them. They exist upon egg yolk in their midgut. They molt their shells as they grow and soon after the first molt, resembling an adult but many times smaller, they drop off and each little cannibal goes his or her own way.

A scorpion has a central pair of eyes and, depending upon the species, from three to five pairs of smaller lateral eyes. In front of the mouth there is a second pair of appendages, much shorter than the pedipalpi, equipped with small but powerful pincers for mashing and shredding food. The first pair of legs have glands secreting digestive enzymes.

Scorpions prey chiefly upon insects but spiders, millipedes and centipedes are also eaten. When a scorpion is hungry it seizes an insect with the pincers of the pedipalpi, paralyzes it with the stinger, mashes it with the short appendages, injects enzymes into it and, when all of the insect's tissues have become fluid, sucks it dry. Nothing but the empty chitinous shell remains. However, scorpions can live more than a year without eating.

There are at least 300 species of scorpions, most of them in tropical or desert regions, and they vary in length from one-half inch to more than seven inches. Some are reddish, some yellow, and some green. There are scorpions in Europe and 30 species are known to occur in the United States southwest of a line drawn from North Dakota to the Carolinas. Apparently they do not occur in Illinois.

There are at least two types of scorpion poison. One is comparatively harmless to man. It causes sudden sharp pain, followed by numbness and local swelling, but after an hour or two the effects are usually gone unless the victim is a child or unusually allergic to such venom. The other type is neurotoxic and similar to the venom of the coral snake and the cobras. The symptoms resemble poisoning with strychnine and frequently death results. Many fatalities from scorpion stings occur in parts of Mexico.

Scorpions, active at night, hide in daytime under stones, logs and rubbish; in crevices of rocks; in barns, sheds and old buildings; and are apt to crawl into houses, tents, and even beds. In scorpion country we empty shoes and shake our clothes before putting them on. Scorpions are sneakers.

WHO COUNTS CALORIES?—When such eye-appealing food is placed before her, what can a lady do, especially with such a charming host as Frank Jurcak, owner and operator of Valley View Farm in Frankfort? While he serves the ladies, all of whom are members of the Valley View Woman's club, his wife on his right awaits her turn. This picture

was taken at the club's November meeting when the year's activities and entertainment for all age groups was planned. The club invites women of the Valley View Swim club to join them at their next meeting on Dec. 13. Lunch will be served at noon and the business meeting will be held at 1 p.m.

Season Cage Tickets Go On Sale Monday

Season basketball tickets for all of Carl Sandburg high school's home games will go on sale at the school bookstore Monday Nov. 20. A season ticket holder will not only be insured of a reserved seat, but will realize a substantial savings. Adult tickets will sell for \$7.00, students \$3.50, nine games for the price of seven. The Bookstore will be open during school hours Monday Nov. 20 thru Wednesday Nov. 22. Tickets will also be available at the door on the night of the first home game, Saturday Nov. 25.

Union Service At Frankfort

There will be a union service by three Frankfort churches on Thanksgiving morning.

The service will be held in the Methodist church, joining in will be congregations from the Green Garden Methodist church and of St. Peter's United Church of Christ at Frankfort.

The service is scheduled for 9 a.m. Special music will be given by the Frankfort Methodist Church choir.

The Rev. James Swain, pastor of the Green Garden church, will deliver the sermon and assisting in the service will be the Rev. James Parker of the Frankfort Methodist church and the Rev. Erich Bizer of St. Peter's.

All persons are invited to attend.

SPEAKING OF BEAUTY

By Mr. Joseph
Formerly With Helena Rubinstein

THE PERSONAL PERMANENT

From the moment we shape your hair before its curling, we are prescribing your special new look. Then we choose the waving lotion that has been chemically formulated just for your hair condition . . . at the precise moment you are having your wave. This lotion may be created to be extra careful of colored hair. Or it may contain soothing creams to aid dry, fly-away locks, or cure a case of dandruff. Even the rods we use, we choose for your hair style. You leave with a wave as carefully planned as the prescription your doctor gives you . . . yet it costs no more than a new hat!

Teachers From L-W Area Will Meet Monday

The Lincoln-Way Area Teachers Association will meet at the Frankfort Grade School on Monday, November 20 at 4 p.m. One-hundred and thirty elementary and high school teachers are expected to attend.

One of the major items for discussion will be the details of the future teacher scholarship that the LWATA will give to a Lincoln-Way High School graduate this spring.

Individual committees within the association will be studying a co-ordinating program in the areas of math, science, language, art, music, and guidance.

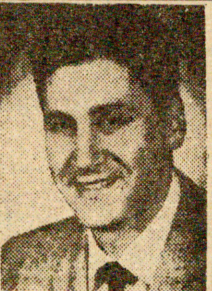

Mr. LeRoy Wright, president of the LWATA and superintendent of the Frankfort Grade School, feels that the group has made much progress in the study of education needs in the Lincoln-Way area.

Open House

A social security open house will be held at the new office at 225 North Chicago Street, Joliet, tomorrow, Nov. 17.

Vance Cummins, publicity chairman for the sponsoring social security committee, said that the purpose of the open house is to better inform the public about the benefits and the services of the office.

From 2 to 5 o'clock on Nov. 17, members of the social security staff will take visitors to the office on a tour of the office.

Girls Choral Groups At L-W Plan Area Tour

Two chorus groups made up of girls at Lincoln-Way high school will make an area tour next Wednesday, Nov. 22.

The Girls' chorus will sing at the Mokena Carpenter street school at 1:15 o'clock and at Frankfort grade school at 2:15.

Mokena Fire Dept. To Have Party Saturday

The Mokena Volunteer Fire Dept. is giving its annual pre-Thanksgiving day party Saturday night, Nov. 18, at Muehler's tavern on Front street.

The department is hopeful that donations will enable it to meet some of its expenses. Two major items that put a heavy drain on the department's treasury are the purchase and installation of a new motor for the Ford pumper plus the overhaul of the pump.

These expenditures, it was pointed out, really constitute a savings for the residents of the territory served. Overhauling the pump has increased its efficiency to the point where it pumps 550 gallons per minute, which is 50 gallons over the amount required by the underwriters.

Had the work not been done, it was explained, the pump would not have met the underwriters standard and insurance rates would have gone up.

The fire department is entirely dependent on the donations from the public to meet maintenance costs and replace or add to necessary equipment, it was stated.

The Sophomore chorus will sing at Oakview school, New Lenox, at 9 a.m. and at the Manhattan grade school at 10:30. Parents are also invited to the concerts.

A catty remark often has more lives than a cat.

Ill. Bells Big Trench Hits Frankfort, N. Lenox

Illinois Bell has begun trenching operations for a mammoth cable laying project. The telephone company's "big trench" will stretch from Chicago Heights through Frankfort to Norway, 36 miles West of Joliet, where the Bell System is building a gigantic telephone regional switching center.

It will be one of nine regional switching centers in the United States.

The center will provide relief for Chicago switching centers and will also act as a disaster route.

"We hope that people will excuse the dust and noise," said John Major, Illinois Bell district construction superintendent, "and that everyone will have patience in any inconvenience this work may cause."

The Frankfort segment of the trench will begin at the intersection of routes 45 and 30. The trench runs from north to south on the east side of White Street to Nebraska. The trench

will run west on the north side of Nebraska to the Frankfort telephone building.

The trench from Joliet follows route 30 to Oak Street in New Lenox. On the east side of Oak Street it goes to an alley south of route 30 and from there to Cedar Road where it meets existing conduit.

Another segment begins at the New Lenox central office and goes east to route 30 along the south side of Haven ave. It follows the south side of route 30 to William Street and then runs east to the edge of the village of Matteson.

There will be over 398,000 feet of trench dug. Over 740,000 feet of conduit and 455,000 feet of cable will be buried. 100 new manholes will be installed. Trenching work will be completed about the first of the year and the entire project late next summer.

Trenching is being done by the Powers-Thompson Construction Company of Joliet.

Woman's GOP Club To Hear Talk On Taxes

The preparation of your tax bill, with all the steps taken up to the actual mailing of it, will be the subject discussed before the Mokena chapter of the Will County Republican Woman's club at its session tonight (Nov. 16) in the display room of the Cooper-Hostert garage on Front street.

The speaker will be Miss

Jean Kaiser, of Joliet, secretary of County Treasurer Roy Doerflinger.

The meeting is open to all women in the community. Refreshments will be served by members of the Mokena chapter's board, Mrs. Edwin Schellhase, Mrs. Henry Opitz, Mrs. Robert Best, Mrs. Harry Fee and Mrs. Robert Mackey.

Initiative Still Counts!

Among the duties of Daniel Cifor, 19-year-old messenger for the Lockheed Aircraft Corporation in Burbank, California, was the delivery of boxes of staples.

Few would think the chore represented a giant step toward getting ahead.

But Cifor was curious. The boxes were marked "5,000 staples" per container. He wondered if there were that many in each box.

So he counted the staples... counted them during his lunch hours for a full week. And he found what he was seeking—a shortage.

He found 104 less staples per box than marked—a fact later substantiated by Lockheed's material department.

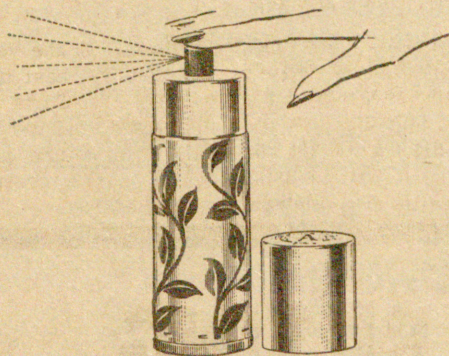

It was learned that the supplier had erroneously recalibrated its automatic counting devices after changing to a heavier wire in the production of staples.

Since Lockheed's California division buys approximately 50 million staples a year, the 2 per cent shortage unearthed by the messenger amounted to 1-million staples.

The supplier made up the shortage pronto.

It looks as if enterprising Daniel Cifor is going to be with Lockheed a long time. They liked his curiosity.

The Brazilian tree frog builds a cuplike crater of mud in shallow water and lays its eggs in a pool within this dike, thus protecting the eggs from fish.

WE'RE NOT

RESTING ON OUR LAURELS!

Just because we won 11 prizes in the 1961 Illinois Press Association Newspaper Contest at Springfield in September doesn't mean we are going to take it easy now.

Indeed, those wonderful awards that we are so proud of, are inspiring us to even greater achievements during the coming days.

Our employees in the print shop, offices, editorial, photographic, sales and circulation departments are doing their very best to serve you and your community and, in so doing, are looking for the added pleasure of winning more awards at next year's meeting.

St. Francis Hosp. Rewards Volunteers

At the recent volunteer convocation at St. Francis hospital in Blue Island, 10 senior and 10 junior volunteers were inducted, 36 were given caps and thirteen received stars for one year of service, from Sister Marie Duchesne, the hospital administrator.

Mrs. William N. Hecht of Mokena was the recipient of a merit award for perfect attendance. Mrs. Hecht joined the volunteers in May 1960. She also was given a silver star for one year of service and her volunteer cap.

The guest speaker, Monsignor William Gorman, Pastor of Resurrection Parish in Chicago and chaplain of the Chicago Fire Department, very impressively spoke on the "Dignity of Service." He highly commended the women on their volunteer activities.

Mokena Area Gives Chest \$393

Contributions made to the Will County Community Chest from Mokena area residents totaled \$393.70, according to Mrs. Art Hostert, chairman of the solicitation campaign here. The Mokena area includes Arby Hills and Arbury Hills. Mrs. Hostert was grateful, she said, for the assistance given by her committee members as well as the householders. The figure of \$393.70 represented cash donations.

The Amvets Auxiliary meets tonight (Thursday) at 8 o'clock in the home of Mrs. Ada Hoogstra, 191st street. The chapter also announced that it is conducting a bake sale Saturday, Nov. 18, at Schalk's Automatic Service store, beginning at 10 a.m. Persons who would donate to this sale are asked to telephone Mokena 5160 or 4682. Proceeds from the sale will go into the building fund that is being raised by the men.

Brownies from the second grade in Willow Crest school had their investiture Nov. 2 in the ceremonies at the school. Twenty-four Brownies received their pins after reciting their Brownie promise to leaders, Mrs. Vera Warning, and Mrs. Mary Holman. Mrs. Corrine Horras, co-leader, took attendance and dues. Mothers of Brownies were guests. Refreshments were served by Brownie hostesses Susan Horras, Karen Lindstrom and Kathy Warning.

At the meeting Mrs. Fred Kropp, missionary chairman, will lead the devotions.

SEGOVIA, SPAIN is one of the interesting parts of the Spanish available to those who take the Golden Triangle Newspapers tour offered by Trans World Airlines. Everyone, well most

everyone, who visits Spain likes it very much and has a strong desire to return. There are quite a number of Americans who have liked it so well there they have gone to Spain to live.

Welcome To Spain Like Sun-Warm And Cheerful

Spain, focal point of the Golden Triangle Newspapers' "Holiday in the Sun," only recently has become a three-star spot on the map of international tourism. Until a few years ago, red tape and practically nonexistent travel facilities discouraged most tourists.

The Golden Triangle - sponsored

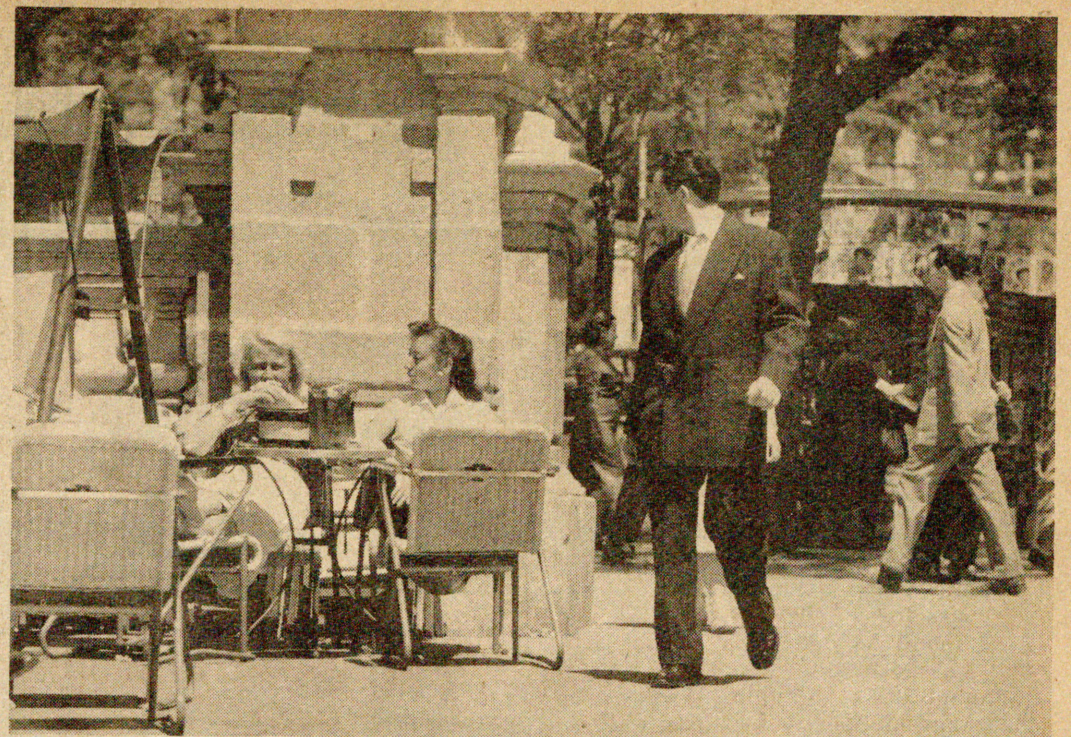

tour, which leaves Chicago by jet March 3 and returns March 19, will include Spain, Portugal and Tangiers, Morocco.

Arrangements are being handled by Trans World Airlines and Joliet Travel and Tours. Cost of the 16-day holiday is \$628.28 from Chicago.

Spaniards have become aware of the political importance and economic advantages that a steady flow of tourists can bring to their country. They opened an all-out drive to divert the tourist currents from Italy and France into Spain.

Border formalities were abolished for bearers of U. S. passports. Tourist visas for other nationalities, once slow in coming thru, were granted overnight on application to Spanish consulates abroad. Currency regulations were eased.

Customs officers at all Spanish frontiers received instructions to use courtesy and be lenient with incoming tourists. Simultaneously Spanish government prompted and backed the improvement of travel and lodg-

AN OUTDOOR CAFE in Madrid is a pleasant place to while away an hour or so as those who take the TWA tour of Spain will attest. Leisure

can be quite pleasant in Spain, according to those who have sampled its charms, and they recommend it highly.

decided to allocate more funds for the promotion of Spain's hotel industry, especially for middle-class tourists.

From Madrid a tourist can aim either southward touring Granada, Seville and Malaga;

northward to the verdant Basque country; east toward Barcelona, the Costa Brava and Mallorca and west to Portugal, a miniature land of neat white houses, green fields and sandy beaches.

Hoover Explains Issues In Fight Over Reapportionment

BY REP. HAROLD A. HOOVER
Congressional redistricting is one of the main issues to be settled at the current special session of the Illinois Legislature. If no agreement is reached, all congressmen will run "at large" or statewide in 1962, which would be contrary to the intent of the law as regards congressional representation.

Insofar as Cook County is concerned, the question relates to the number of districts that are to be in Chicago and the number that are to be in the suburban area, and the ex-

tent, if any, that districts should include both Chicago and suburban areas. On the basis of the 1960 census, Chicago is entitled to 8.4 congressional districts, and the suburban area to 3.6 districts. During the past ten years, the suburban area increased by about 700,000 in population, while Chicago decreased by about 70,000.

Democrats originally took the position that Chicago should retain all ten of its present congressional districts, which was the reason why no solution was reached during the regular session in June. Now the Democrats concede the loss of one district in Chicago, but have drawn their version of districts to insure that the remaining incumbent Democrat congressmen in Chicago would be re-elected. Lyons Township suffers in the reapportionment map submitted by the Democrats by being cut in half, the eastern portion being included in the 5th District which extends east to Wentworth Avenue in Chicago, almost to

Lake Michigan. Also, the Village of Evergreen Park has been included in the 3rd District, which otherwise consists mainly of Chicago wards.

The Republicans have submitted a reapportionment map which sets up four districts in the suburban area but including some Chicago wards on the southwest and northwest sides of Chicago. The basis for this map is that the suburban area is entitled to 3.6 congressmen by the 1960 census, and that population growth dictates that consideration be given to the suburbs to avoid another imbalance between districts before the next census.

A third map has been introduced by the Better Government Association which sets up seven Chicago districts, three suburban districts, and two districts which are principally in Chicago but including some townships. Democrats don't like this map, which cuts their potential down to seven, and the suburban Republicans do not like it because some suburban areas, including the Township of Worth, are placed in predominantly Chicago districts.

Mayor Daley raised the issue that Republicans were trying to build a "Chinese wall" around Chicago by making exclusively suburban districts. This principle, however, was recognized and incorporated into our constitution when reapportionment for the State Legislature was adopted in 1954, and there were no objections at that time by Democrats. It is my observation from my experience in Springfield that, at the present time, no Chicago Democrat has the freedom to honestly repre-

VISITING DAY at Orland Park grade school drew quite a number of parents, particularly mothers. This is first grade class and Mrs. Moody, at the left, is the teacher. At the

Lincoln Estates County Auxiliary Police To Meet On Nov. 18

MRS. EMIL WILLE, Tel. Frankfort 5277

The Will County Auxiliary Police will hold their next meeting the evening of Nov. 19 in the Ann Rutledge school.

Kathryn Martin was the guest of honor at a surprise farewell party given for her by her seventh grade classmates. The party was held in the home of Karen Olsen. There were 14 guests present. Kathryn received an autograph book and a necklace with her birthstone as gifts from the group.

The recreation club of the Ann Rutledge school had a polka party at the school the night of Nov. 3. Records for the dance were furnished by Russell Clark Mrs. Steve Kubeck and Patti Balsie. Chaperones were, Mrs. James Delaney, Mrs. Kubeck, Mrs. Wendell Jenkins, Mrs. Russell Clark and Mrs. Dwight Hicks.

The Eastern Area PTA Council met the evening of Nov. 2 at Mokena. Attending from here were Mrs. Cal Heath, Jr., Mrs. Wendell Jenkins, Mrs. Audrey April and Mrs. Dwight Hicks. Doughnuts and coffee were

served by the Mokena unit

Mr. and Mrs. Edward Nicholson are parents of a daughter born Nov. 2 at Silver Cross hospital. She has been named Gloria Jean. She has two brothers, Paul and Robert.

IN THE CHURCHES
ST. ANTHONY CATHOLIC—The Rev. Cecil Koop, O.F.M., pastor
Sunday morning masses at 9:00 and 10 o'clock.
CALVARY BAPTIST—The Rev. S.E. Waldemar, pastor
Sunday school 10 a.m.; Sunday morning worship, 10:45; Sunday evening services at 7:00; Wednesday evening prayer meeting, 7 o'clock.

Mr. and Mrs. Dwight Hicks and family spent Saturday with Mrs. Hicks parents, Mr. and Mrs. Charles Cole. The grandparents gave a dinner in celebration of Marilyn Hicks' 11th birthday. There were 19 guests, including some from Chicago, Bloomington and Schiller Park.

First and second grade pupils of Ann Rutledge school made a field trip to the Hawthorne Melody Farm on Thursday. They were accompanied by their teachers, Mrs. Frances Feeley and Patricia Raymond and the following mothers, Mrs. Frank Kovar, Mrs. Cal Heath, Jr., Mrs. Frank Abbott, Mrs. John Tyler and Mrs. Stanley Staton. The first grade pupils also had a "hot dog" luncheon at the school on Wednesday for getting the most members for the PTA. Luncheon was served by Mrs. Kovar, Mrs. Tyler, Mrs. April and Mrs. Hicks. The sixth grade finished in second place, and the seventh grade was third.

Despite decades of careful study, ornithologists still do not know why birds rub their feathers with live ants.
Linsey-woolsey, the combination of linen and wool, anticipated by centuries and modern practice of blending fibers.

INSTANT HEAT Anywhere

Only a Knipco heater brings you circulating warm air instantly, wherever you need it. Plug it in anywhere—indoors or out. Use the really low priced Knipco in your machine shed, hog house, milk house, or chicken house. Thaw pipes, pumps, equipment. Pre-heat engines. Many other applications.
Burns kerosene or No. 1 fuel oil, needs no vent. Anyone can run it. Plug in for heat—pull plug to stop! Thermostat available.
The larger F150 works just as easy but puts out more heat. Stop in soon for a demonstration.

ENJOYS BOWLING does Marijke van den Nouwland, exchange student at Lincoln-Way high school from Belgian and she is a regular attendant at the Girls Athletic Association sessions at Davey's Lanes, New Lenox. The GAA has two bowling groups, one that bowls on Monday afternoons and on Tuesdays. Since it is part of the school day the girls only have time to roll one game.

Tell New Basketball Rule Change

Six Basketball Rules interpreters appointed by the Illinois High School Association met in Chicago Oct. 5 to receive instructions on the proper interpretations for the 1961-62 cage code. The interpreters, well-known basketball officials, will interpret the new rules at 19 Basketball Rules Interpretation meetings sponsored by the IHSA and held in different parts of the state during the period from Oct. 31 through Nov. 15.

The major part of the discussions were centered around the more important rules changes for the 1961-62 season. The changes this year are more important and of greater significance than in any recent previous year.

Following are the more significant changes for the coming season:

- (1) New court markings include 8 in. x 12 in. neutral zone mark which will separate the first and second spaces on both sides of the free throw lanes.
- (2) Visiting team will choose the basket at which they wish to practice before the game. This will be their basket for the first half.
- (3) The "sudden death" method of ending high school overtime game has been deleted. The team ahead at the end of any 3-minute overtime period is the winner.

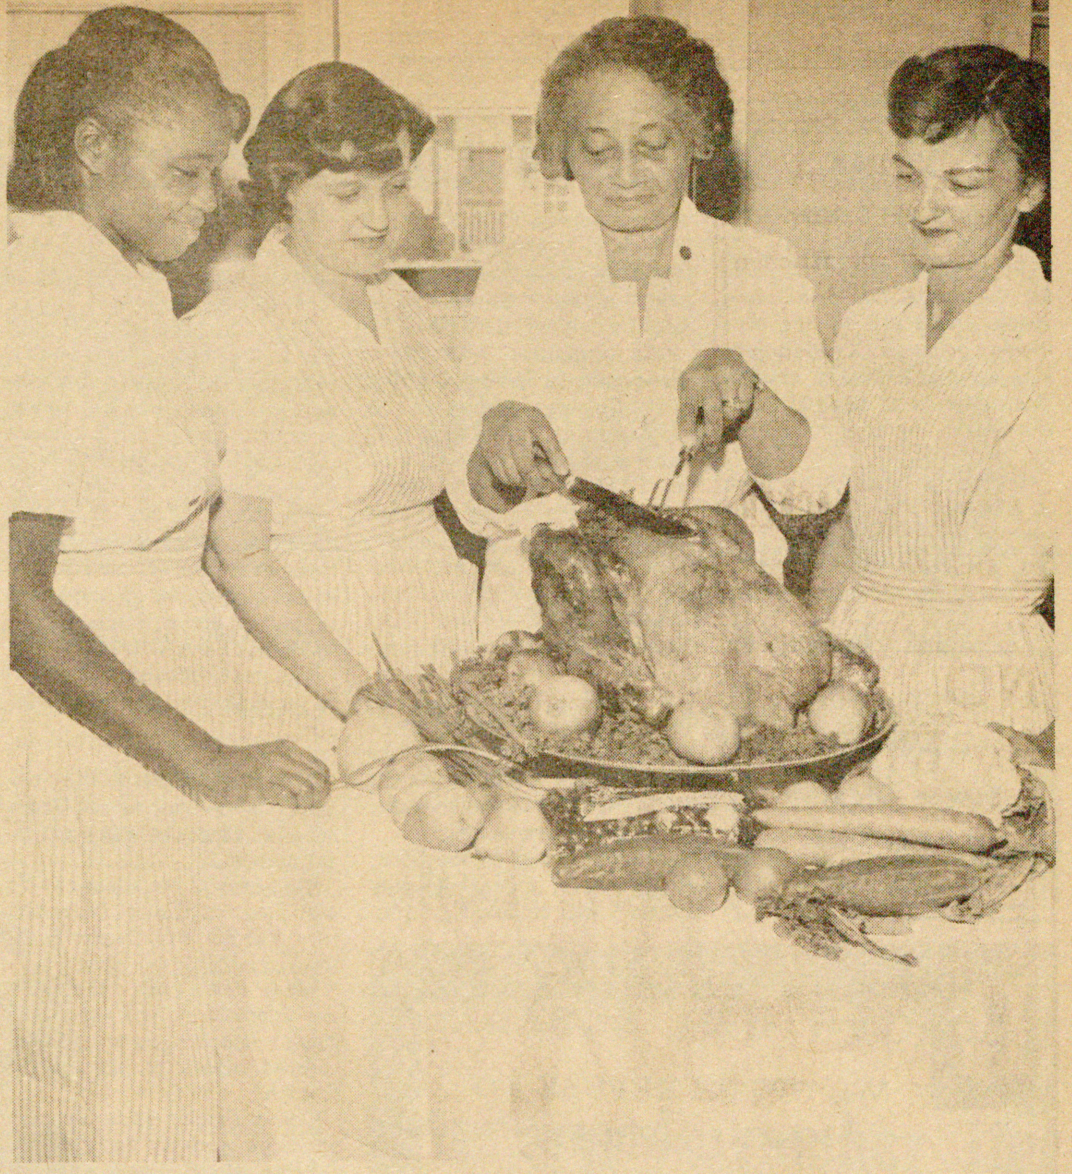

(4) A substitute who has reported and is entitled and ready to enter the game, may enter when the ball becomes dead because of a violation. Scorer will signal to the Referee who will stop the clock and beckon the substitute onto the floor.

(5) For a jump ball, each jumper shall have one foot or both feet on or inside his half of the jumping circle.

(6) If a player commits a common foul while he or a teammate is in control, the foul shall be charged, but no free throw is awarded. Instead, the offended team is awarded the ball at the out-of-bounds spot nearest the foul. The Official shall HAND the ball to the thrower-in.

(7) It is a free throw violation if during the free throw a player along the lane has a foot beyond the vertical plane of any edge of the space designated by a neutral zone mark or a lane space mark.

(8) Provisions prohibiting a coach or team follower on players' bench from signalling or communicating with players on the floor during a game have been removed.

HOLIDAY FOODS for those who are ill was an appropriate pre seasonal lecture for Oak Forest Hospital student practical nurses (left to right) Elizabeth Curtis, 807 Ellis Ave., E. Chgo. Hgts.; Betty Johnson, 14 Apple Lane, Park Forest; Mrs. Lexia Prince, 1130 E. 50th St., Chicago; Johann

Ivins, 10146 W. 151st, Orland Park. The lecturer Mrs. Prince, dietetics instructor, well illustrated by her carving a Thanksgiving turkey, which she prescribes as a nearly perfect food for all diets; even weight watchers!

Can Register Now For Biddy Cage League

The Palos-Orland YMCA's Biddy Basketball League will get underway for its third year of operation on Saturday, Dec. 2, 1961 at the Orland Park Elementary School from 9:00 a.m. to 12:00 noon.

Using Sept. 1, 1961 as the date for age computation, any boy between the ages of 9-12 and not more than five feet-six inches tall is eligible to participate in the program.

Directing the 1961-62, 16 week, season is George Little, 8421 Hillcrest Drive, Orland

Park who may be reached evenings at Gibson 8-4219 for further information.

The first four sessions will be utilized for practice and organizing comparable teams. The last twelve sessions will be utilized for scheduled games.

Registration blanks for Biddy Basketball are available at the "Y" office in the Jewel Annex at 123rd and Harlem Avenue.

Application of players and payment of fees will be accepted thru 12 noon on Saturday, Nov. 25.

MRS. DELORES ANDERSON
Tel. HUXLEY 5-3651
Final plans are being made for the annual bazaar and luncheon, sponsored by the Women's Society of Christian Service of the Methodist church. The affair is to be held at the church, on Haven avenue, Nov. 29.

The bazaar will be on from 10 a.m. to 4 p.m. The luncheon

will be served from 11:30 to 1 o'clock. A donation of \$1 will take care of the luncheon, it was said, and reservations may be made by calling HUXLEY 5-4751.

The committee in charge of the events is headed by Mrs. Bert Brown; members are, Mesdames Arthur Nelson, R.P. Cullison, Frank Chandler, Walter Lewis and James Reilly.

The Martha circle will have charge of "Ye Ole Country Store"; Ruth Circle will operate the "Thrifty Gift Shoppe" and "Fishing Well"; Mrs. C. V. Rowe is to be in charge of the "Apron and Hanky" and the "Fancy Work" booths. Naomi circle will serve the morning coffee and afternoon tea.

A study group on the book, "Glimpses of a Fast Moving Society" will be held Nov. 16th

from 7:30 to 9:30 p.m. at the Fellowship hall in Methodist church, under the direction of Mrs. Beverly Elliott.

The Cloverbelles 4-H club met in the home of their leader, Mrs. Gus Termunde, on November 9th. Miss Judy Termunde, president, conducted the meeting, and routine reports were given.

Premium money from the club was distributed to the members, Karen Handorf joined the club at this meeting, and hostesses were Bonnie Grunwald and Diane Mohnney.

The next regular meeting will be held December 6th at 6:45 p.m.

Mrs. Lester Brown underwent major surgery Wednesday Nov. 8th in Silver Cross hospital.

Mayor and Mrs. Stanley Gilmore, 4th ave., have as their house guests, her brother and sister in law, Mr. and Mrs. Robert L. Wescott from Fairbanks, Alaska who are spending the winter months here with relatives, Mrs. Gilmores father, Ben R. Wescott of Springfield, Mo. is making his home here now with his daughter and son in law.

The New Lenox Band Boosters will hold their meeting Tuesday night Nov. 21 at 8 o'clock in the Oakview school. Hostesses for the evening will be Mrs. Louis Balbinot, Mrs. Burton Gillette and Mrs. Mary Ann Mooney.

WE OFTEN REFUSE TO MAKE A PROFIT

Sometimes we are asked to sell medicines that should only be dispensed on a physician's prescription, or that we consider potentially harmful if improperly taken.

We will never let the loss of a profit influence our decision. It is our moral and legal duty to protect you. Should we ever refuse to sell you something and advise a visit to your physician, please follow our advice. We do have the professional knowledge to make such decisions.

YOUR DOCTOR CAN PHONE US when you need a medicine. Pick up your prescription if shopping nearby, or we will deliver promptly without extra charge. A great many people entrust us with their prescriptions. May we compound yours?

Put your car and your cares— in CONOCO

They hold the protection that can't drive

Super Lubricant protection against engine wear—24 hours a day! Yours with Conoco Oil. Exclusive Oil-Plating® "plates" a magnetic-like film on engine parts that won't drain. Result? Smoother, safer starts, automatic warmup, less friction wear! Today—change to Conoco.

SHARE SKILLS and in this instance the recipient is a student at the Lt. Joseph P. Kennedy School for the retarded who is getting instructions in swimming at the Carl Sandburg high school pool. The young instructor is Ronald Scherubel, one of the Sandburg Guard organization. These guards, boys and girls, are chosen for their ability as swimmers -- all styles --; classroom work; desire to be of service to the school and community; ready and willing to be at the school three nights a month to aid in the swimming program, if needed.

All must pass an American Red Cross course in lifesaving and water safety and they must be able to teach swimming.

When Robert Grindey, aquatic director at CSHS, and Mrs. Sharon Peterson, girls physical education department and a specialist in the aquatic field, established the guard in the spring of 1961, approximately 90 students tried out for it. There are 40 members in the organization. Six freshmen boys and six freshmen girls will be accepted annually which means the membership will run to about 48 a year.

Looking for service project this fall the guard was unanimous in voting to give swimming instructions to boys from the Lt. Joseph P. Kennedy school. There will be 25 boys attending these classes each month.

Mrs. Ernest Oram is a medical patient in Silver Cross hospital.

Orland Park Plan Dinner At Methodist Church On Thanksgiving

BY MRS. SHERMAN KNOX
Tel. Fieldbrook 9-0211
There will be special services at the Methodist church at 10 a.m. on Thanksgiving. There also will be an extended Thanksgiving day service at the church at 2 p.m. to present families who have been displaced from their homes.

committee members assisting. George Buckley and Roy Benson represent the Cubs.

Mrs. Edward Mell has returned from Elkhorn, Wis., where she was taking care of her mother, Mrs. Paul DeLapp, who is ill. She was with her two weeks.

Plan Bazaar

The Creekside Garden Club has made final arrangements for their bazaar and handicraft sale, at the Northwest Homer fire station, 143rd st., just east of State rd., Lockport township, 6:30 to 10 p.m., Friday, Nov. 18, and 10 a.m. to 6 p.m., Saturday, Nov. 19.

Mrs. Elsie Yunker came home from the hospital Friday afternoon and is convalescing nicely.

Mrs. Ray Myrick is a patient at Silver Cross Hospital, Joliet.

Last Thursday the furnace at the home of Clyde Wilcox, 14309 Beacon Ave., was leaking oil, so for safety measure, he called the Fire Department for help. There was no fire and no damage.

Mr. and Mrs. Robert Roth of 159th St. & 113th Ct. are parents of a boy born, Wednesday, Nov. 1 at Silver Cross hospital. He weighed 6 lbs. 4 oz. and has been named Bret Henry. They have another son Robert, who is one year old. This is

Everyone is welcome to come and shop around for ideas or gifts.

Homer School Club Holds Fall Style Show Friday Night

By ELIZABETH ANDERSON
Elaborate preparations are in progress for the Autumn Style Show which will be sponsored by the Homer Consolidated School Club on Friday evening, Nov. 17, beginning at 8 o'clock at the school. Proceeds will be used for school purposes.

Foreign Policy Is Topic For LWV Meeting

The November unit meeting of the Palos-Orland League of Women Voters will be held on Monday evening, November 20, at 8:00 p.m. in the home of Mrs. William Cisna, 12502 S. 80th ave., Palos Park.

Mrs. William Underwood is the general chairman, Mrs. Willard Cagwin is ticket chairman, Mrs. J. J. Paddock is in charge of refreshments and Mrs. Ralph Reiter of decorations. Usherettes are Misses Carla Cochran and Susan Reed. Pianists will be Misses Alma Lauffer and Betty Anderson.

The topic of discussion will be Foreign Policy. In the past, the League has supported the expansion of both imports and exports and opposed measures designed to restrict trade. These are among the issues to be discussed.

Clothing for the show will be furnished by Ward's Joliet store and the narrator will be Mrs. Emma Lorenc from the store. Jewelry demonstrator will be Rene Payne.

Mrs. Jack Winters and Mrs. Eugene Smith will preside as discussion leaders.

Acting as models will be Mesdames Robert Erickson, Owen Doyle, Joseph Greenwalt, Ralph Cagwin, Harry Scheller, Charles Jungles, also Mrs. Albert Thomas, R. W. Carlson, Fletcher Binion and Henry Hiller, and Misses Judy Cunningham, Donna Lee Dobbs and Geri Smego in the adult group. Children who will model are Christine Reiter, Patty Townsend, Sharon Lynn and Cindy Lou Underwood, Dennis Jeffries, Kevin and Marcia Erdman. In the teenage group will be Jean Lauffer, Dianne Moravec, Sandra Kelm and Donna Stewart.

The same discussion will be presented with Mrs. Herbert Hubbard presiding.

Special entertainment numbers will be furnished by a group

Give Farewell Program For N. Peotone Pastor

MRS. KATHARINE HEISNER
Tel. Frankfort 5187

Members and friends of St. John United Church of Christ in North Peotone assembled recently to bid formal farewell to the Rev. and Mrs. Ernest Gander who have moved to Plymouth, Wis. The Rev. Mr. Gander had served the church as pastor for the past 13 years.

The program included solos, duets and audience singing. Mrs. Herman Sievers gave a history of the past 13 years in the life of the church and the Rev. and Mrs. Gander talked of their experiences during the period.

The program closed with a prayer by Glenn Nagel, superintendent of the Sunday school. A purse and gift were presented to the pastor and his wife by Carl Toepper, president of the church board. Refreshments were served.

The Rev. William Riemann, of Chicago Heights, retired and formerly of St. John's church, Mokena, will serve as supply pastor for the present at North Peotone.

The WSCS of the Green Garden Methodist church will give a mission luncheon Thursday, Nov. 30, beginning at 1 p.m.

Guest speakers will be the pastor and his wife, the Rev. and Mrs. James Swain, who are only recently returned from India where they spent three years. Ladies societies from Wilton Center and WSCS groups

from Elwood, Frankfort, Peotone and West Peotone are invited as is anyone else who may be interested. Reservations must be made before Nov. 22 by calling Frankfort 3651 or HUXley 5-8736. A free will offering will be taken.

The Rev. and Mrs. Swain spent Friday and Saturday of last week visiting friends in Chicago.

Mr. and Mrs. Otto Schaffer have rented the house of Mr. and Mrs. William Wanner. The latter recently had an auction and have now moved to Frankfort where they have purchased a home on Pacific street from the Roy Thorensens.

The Green Garden commu-

ity unit school PTO is to hold its monthly meeting at the school Friday evening, Nov. 17 at 8 o'clock. Stewart Kroesh, a Joliet attorney, is to be the guest speaker. Mr. Kroesch is blind and has been using a guide dog for many years. He will demonstrate some of the ways in which such dogs aid sightless masters.

The Mokena grade school Girls Ensemble will sing. Serving as hosts and hostesses will be Mr. and Mrs. Clyde

MUEHLERS TAVERN

FRONT ST. MOKENA, ILL.
8 P.M. TO ?
EVERYBODY INVITED

THE PLAYS THE Mc-THING--there, he's said it, the caption writer that is, and he's glad. The piece, "Mrs. Mc-Thing" is to be staged at Carl Sandburg high school tomorrow and Saturday nights (Nov. 17 and 18) at 8 o'clock. We don't know what the play is about nor the locale but if allowed to guess would say it has a touch of London about it and if the lower picture is to be believed there's a bit of terror too. The top picture shows the cast. Left to right, they are (back row) Richard Singer, Alan Goes, Robert Ingram, Garry Vance, Dave Johnson, Joseph Turrise, Rimas Tumasonis; (middle row) Lois Kamis, Georgann Wennerberg, Vicki Hutchins, Nicki Deardorff, Sue Bettenhausen, Sharon Irving and Dee Anderson; (front row)

Bruce Vance, Joanne Van Pelt, Pat Majden, Connie Cummings, Steve Rogers and Laurel Voras, prompter. In the lower picture left to right, Bruce Vance, Rogers, Singer and Miss Anderson. (CSHS photos)

Chicago Hts. Leads South SW Suburbs In Building

(CNS) Chicago Heights for the second month in a row led south and southwest suburban communities in a construction report for August, recently released by the Bureau of Census. However, the 46 building permits issued in August represented a 54 per cent drop from the 71 issued in July.

Blue Island and Cicero ranked second and third with 36 and 33 permits respectively. In July they shared 12th place with 15 permits each.

Oak Lawn also surged ahead from 6th place in July to 4th place in August with 28 permits.

Other south and west suburban communities in the top ten were: Joliet, 27 permits; Aurora, 26; Harvey, 25; Forest Park, Tinley Park, 22 each; Oak Forest, 20; Downers Grove, Lansing, 19 each.

Also listed in the August report were: Berwyn, 18; Country Club Hills, South Holland, 17 each; Westchester, 16; Hinsdale, Homewood Midlothian, 13 each; Calumet Park, Dolton, 12 each; Robbins, Western Springs, 11 each; Crestwood, 10; Steger, 9; Sauk, 8; Alsip, Calumet City, 7 each; Thornton, Olympia Fields, 6 each; La Grange Park, Park Forest, Riverside, 5 each; Evergreen Park, 4; Bridgeview, Flossmoor, Worth, 3 each; East Hazel Crest, Markham, North Riverside, Riverdale, 2 each; Broadview, Brookfield, Chicago

Ridge, Lisle, Romeoville, Summit, 1 each.

Building permits were not issued during August in Lemont and East Chicago Heights. No data was available for Posen, Orland Park, South Chicago Heights, and Stickney.

Young Canada geese feed on grains, marine plants, insects, their larvae and snails. They double their weight in a week and are fully grown in six weeks.
